

**WOMEN IN
LIGHTING**

“When we talk about women in design, we should not turn it into a minority issue. We need to honour our heroines because unless they are visible, we will not encourage the next generation of female designers.”

ILSE CRAWFORD

WOMEN IN LIGHTING is an inspirational and global digital platform that profiles women working in the field of lighting and lighting design. It aims to promote their passion and achievements, narrate their career path and goals. It aims to celebrate their work and increase the profile of women working in lighting to help encourage, support and inspire the next generation.

WIL has used social activism to highlight and challenge unconscious bias in the industry via a strong social media presence that has built a large following. The project is also supported by individual women in 75+

AMBASSADORS

The Women in Lighting ambassadors are a point of contact in each location for you to find out more about or become involved in the project.

WOMEN IN LIGHTING

Gender equity means respecting all people without discrimination, regardless of their gender. It also means addressing gender inequalities that limit a person's ability to access opportunities to achieve better health, education and economic opportunity based on their gender.
